

VOLUME 1 A COUNTY DIVISION OF CORRECTIONS
Informational Report Supplement

PAGE ____ of ____

Veira,
INMATE NAME: Veir, Tracy

BOOKING NUMBER 803671

CELL SM03

SUBJECT Inmate Death

LOCATION VCCF

DATE 9/16/09

TIME 0954

In reviewing this incident Security Staff found I/m Veira on the floor of cell SM03 face up and unresponsive. Emergency procedures were immediately implemented. Security and Medical Staff responded, entered the cell, evaluated I/m Veira, had EVAC contacted and proceeded to implement life saving measures. This occurred within the first two minutes of the code being called. Medical continued to perform CPR until fire services arrived at 1005 hours, performed their evaluation and continued CPR. At 1008 EVAC arrived and after consulting with Dr Mohammed at HMC pronounced I/m Veira deceased at 1012 hours. The cell had been secured, VCSO notified, they arrived 1035 and the Medical Examiners office notified, they arrived at 1034. Staff kept all North Wing Inmates secured until the Medical Examiners office removed the body (1120) and VCSO cleared the area and departed at 1156. My initial review shows staff responded quickly and performed their tasks correctly. Lt. Gray did a very good job of controlling the scene and directing staff. Statements were taken from all staff present as well as from all staff who worked on North Wing on the preceding shift (Bravo). As I/m Veira was on a medical watch, the VCDC 52s were checked and found that the segregation checks were made at the appropriate intervals. Inmate Veiras property was taken by VCSO as part of their investigation. SM03 was cleaned and sanitized and all linen disposed of in red biohazard bags. Once the area was cleaned all inmates were released from their cells and North Wing returned to normal operations.
