Subject: RE: PRR - Muriel Comeau death

Would like at least the IA case# assigned to Ms. Comeau's death -- it is NOT on any of the paperwork VolusiaExposed.com received (to our best reviews). These reviews were exacting -- it is noted that at least two guards (Sophie and Hutton) put both IA investigators Modzelewski and Dofflemeyer on scene in their reports (see pages 34 & 38 of PDF your office supplied), however, in Ofc. Bauer's "Suicide Chronological List of Staff Responding to Scene" report (page 68-69), these two individuals are NOT listed .... now apparently VolusiaExposed.Com can not obtain the simple IA case # nor the final report from Internal Affairs in regards to Ms. Comeau's death (note - these reports have been prepared in other in-custody deaths) Hopefully your office understands that this can cause some suspicions. First was this death properly investigated? and Second why have some names been apparently with held as being on scene? Any clarity you can provide will help to alleviate this suspicions. Indications are (see below email)that an IA file was open - please at least provide that case #.

We are attempting to give this matter a fair review. We intend to discuss the above matters on our website, therefore we shall use this email (and any answers you might supply) as proof that we attempted to allow Volusia County government the opportunity to resolve these issues prior to posting them. Further we understand that this matter is currently under litigation, so therefore, Volusia County might not wish to respond.

Thanks  
cc.

Dear Volusia Exposed,

A review has been done and the complete file has been provided to Volusia Exposed.

Thank you,

Joanne F. Magley

Joanne:

I have conducted by initial review of the files VolusiaExposed.com received today in regards to the Muriel Comeau jail death.

Although the records clearly indicate that both Department of Public Protection Internal Affairs investigators (Modzelewski and Dofflemyer) were on scene for the death investigation. I only noted two cover sheets from Modzelewski to FDLE in the supplied public records. Were these two cover sheets all that internal affairs generated on this death investigation?

I suspect that Modzelewski or Dofflemyer at the very least filed a final report to the jail director on this death in similar fashion as in the Tracy Veira death (2009). Please review to the below web link.  
<http://volusiaexposed.com/corrections/Veira/8.pdf>

Where is the final Dept. of Public Protection IA report on Comeau's death?  
Was an Dept. of Public Protection IA investigation even conducted on this death?

Records at least appear to give indication that an IA file was open on this death (please see attached email record in PDF format titled - proof of ia file ) Please note the hand written instructions to place the email in the IA file)

If an IA file was open, it would only be logical that a final IA report was prepared and that a IA case number was assigned (if only for tracking purposes).

Please supply both the final report as well as the assigned IA case number.

Thanks
