To Volusia Exposed -- Re:payroll error From Dave Byron Your request for records re: the recent payroll problem has been received. The exact nature of your request is unclear. Perhaps I can save some time on our end and some money on your end. There was a payroll problem with the most recent paychecks, which was quickly discovered and corrected. This was an electronic glitch on the part of the external company that processes the payroll transfer for the county. Somehow, unexplainably, the company picked up payroll data from a prior year. This resulted in many employees' paychecks being direct deposited in the wrong amount, or to the wrong people (retirees). As noted, the error was quickly corrected. All incorrect payroll transfers were rescinded; the proper transfer was made. No employees or retirees received or lost any money that was not proper. -- Dave Byron, Community Services Director
