Subject: Direct deposits

Lt. Langdon / Pam Renfro

VolusiaExposed.Com has received notifications from SEVERAL retired employees of the Volusia County Division of Corrections - that recently (September 29-30) that they received payroll deposits into their banking accounts - even though several of these employees have been retired / separated for some time. These payroll deposits were quickly rescinded by Volusia County.

We would like any documents / reports that Volusia County and/or the Corrections Division generated on the temporary misappropriate of these funds.

Please accept this as a public records request (as per F.S. 119) for those reports / documents.

We anticipate that since this apparent incident has only just recently occurred, that no extensive usage of information technology or clerical / supervisory assistance will be needed to fulfill this rather simple public record request.

Thank You

VolusiaExposed.Com
