On the above date and approximate time, I assisted with the inventory of the property of Inmate Wooley, Heidi 844775 by sealing some of her jewelry items in plastic bags. Inmate Wooley had a large variety of different types of items in her purse, therefore multiple staff members were assisting in the search and inventory of the contents of her purse. The rings that I sealed were in the bottom portion of a plastic jewelry bag. I seal the bags in seperate compartments (rings in one, bracelets in another, etc.). To my recollection, I sealed rings in the bottom of one jewelry bag. I don't recall if it was three or four. Several staff members were assisting. Inmate Wooley was still attempting to remove what I thought was two rings that were still on her fingers. Another staff member was assisting her. It is very likely that she had five rings but it was incorrectly entered as six. I did not make the computer entry and don't recall who did.
