Mr. Banks:

While the Volusia County Sheriff Department (VCSO) did investigate the death of Tracey Veira – we believe that Investigator Campanella failed to follow up on his initial documented suspicions that Ms. Veria state of decomp was not consistent with the correctional officers documented observations of her.

As you are aware – Inmate Veira was on a special medical watch.

We suspect that the VCSO's investigation was improperly influenced by a (family) conflict of interest between the VCSO and the Volusia County legal department.

We also hold the opinion that the falsification of official records is not simply “inaccurate reporting and dereliction of duty” as indicated in your response.

Rather they are violations of FLORIDA law, requiring the attention of the Florida Department of Law Enforcement and not the FBI. That these violation of Florida Law “implicates members of the corrections department in the intentional commission of acts which” facilitated the death of Inmate Veira.

We ask FDLE to investigate these matters as it did in the following similar circumstances:

<http://www.fdle.state.fl.us/Content/News/March-2010/Former-Caseworker-Charged-with-Falsifying-Child-Pr.aspx>

<http://www.fdle.state.fl.us/Content/News/FDLE-Charges-Three-State-Corrections-Officers.aspx>

We would hope that FDLE will not handle the Volusia County matter in similar fashion as it did in the in-custody death of Martin Anderson:

http://en.wikipedia.org/wiki/Martin_Anderson_death_controversy

If you wish us to forward this or further information to RAC Massey – then please provide his contact information.

We invite FDLE to re-visit our recently updated web page on the Veira matter - that further explains our concerns – (updated last on September 23, 2011)
