Subject: FW: e-mail search request

Date: Fri, 27 May 2011 08:46:38 -0400

Please see below for the explanation from our Information Systems staff. Should not be a problem again.

Regards,

Gary

They were caught in the Spam filter. I have created a rule that should prevent them from being caught in our filter again. Let us know if you have any more problems pertaining to this issue.

Can you advise why I didn't receive them at the time they were sent? Were they caught up in the spam filter, or some other explanation? Thanks.

Gary,

I found the two missing emails you were looking for and I released them for you. If you have any further issues please contact Information Systems.

Subject: e-mail search request

If it's not too much trouble, can someone please check my e-mail account for any incoming messages from either VolusiaExposed.com or volusiaexposed@cfl.rr.com between the dates of May 16-23, 2011. They claim to have sent me three e-mails during that time frame, but I only have a record of having received one. Perhaps my in-box was full and the other two bounced back or perhaps they somehow ended up in a spam folder. I would like to have the facts before responding to them.

Please advise if this is do-able and the approximate turn-around time. I realize you all have much more pressing things to do, so please don't consider this high priority. I just need to know if someone can do this for me, and when. If necessary, I'm willing to come to you and perform the search myself. Please advise.

Thanks,

Gary
